

Plant materials available for 2019 from The Salish Seeds Project

The Salish Seeds Project is restoring native wildflowers and grasses in the San Juan Islands. Plants and seeds of species native to island grasslands, oak savannahs, and prairies are produced at a nursery located at Red Mill Farm in San Juan Valley. The San Juan Preservation Trust owns the property and the San Juan County Land Bank runs the nursery.

Most of the species grown are difficult to obtain commercially, particularly stock that's native to the Salish Sea region. Many are quite showy and are great for native pollinators.

Plant materials produced by the Salish Seeds Project can be grown for and sold at cost to other organizations or individuals. To ensure availability, orders must be placed in advance. **Contact nursery manager Eliza Habegger (360-378-4402 or elizah@sjclandbank.org) for more information or for assistance in planning your project.**

SEED: The majority of seed produced by the Salish Seeds Project is currently used for Land Bank habitat restoration projects. However, it may be possible to grow out additional seed by advance arrangement, or assist in locating appropriate seed from other sources.

PLANTS: Plants are available primarily as plugs or 4" pots. Garry oaks in deep pots as well as limited quantities of camas bulbs are also produced. Plants are typically grown for fall outplanting, but in many cases can be provided in summer if desired.

Please bear in mind that some of our native species require fall sowing in order for germination to occur, which can mean planning for your project well in advance.

Photos, left to right: *Sisyrinchium idahoense* 4" pot; sea blush seed production; *Cerastium arvense* plug.

Species list and prices for 2019 orders

Orders for species with an asterisk should be ordered by October 2018 for delivery in summer or fall 2019. Other species can be ordered by April 2019.

Scientific name	Common name	Per plug	per 4" pot	Per bulb	Min. order
<i>Achillea millefolium</i>	yarrow	0.80	3.50	----	25
<i>Agoseris grandiflora</i>	agoseris	0.90	3.50	----	25
<i>Allium cernuum</i> *	nodding onion	0.90	3.50	----	25
<i>Anaphalis margaritacea</i>	pearly everlasting	0.90	3.50	----	25
<i>Aquilegia formosa</i> *	western columbine	0.90	3.50	----	25
<i>Camassia leichtlinii</i> **	Great camas	----	----	0.90 -1.40	----
<i>Castilleja hispida</i> *	rough paintbrush	0.90	3.50	----	25
<i>Castilleja levisecta</i> *	golden paintbrush	1.50	----	----	25
<i>Cerastium arvense</i>	field chickweed	0.80	3.50	----	25
<i>Danthonia californica</i> *	California oatgrass	1.00	3.60	----	25
<i>Dodecatheon hendersonii</i> *	Henderson's shooting star	1.50	4.10	----	25
<i>Elymus glaucus</i>	blue wild-rye	0.90	3.50	----	25
<i>Eriophyllum lanatum</i> *	wooly sunflower	0.90	3.50	----	25
<i>Festuca roemerii</i>	Roemer's fescue	0.90	3.50	----	25
<i>Festuca rubra</i>	red fescue	0.90	3.50	----	25
<i>Grindelia integrifolia</i>	Puget Sound gumweed	0.90	3.50	----	25
<i>Lithophragma parviflora</i> *	prairie star	0.90	3.50	----	25
<i>Lomatium nudicaule</i> *	barestem location	0.90	3.50	----	25
<i>Lomatium utriculatum</i> *	spring gold	0.90	3.50	----	25
<i>Quercus garryana</i> +	Garry oak	----	4.80	----	5
<i>Luzula comosa</i>	field woodrush	0.90	3.50	----	25
<i>Prunella vulgaris</i>	self-heal	0.90	3.50	----	25
<i>Ranunculus occidentalis</i>	western buttercup	0.90	3.50	----	25
<i>Sanicula crassicaulis</i>	Pacific sanicle	0.90	3.50	----	25
<i>Sidalcea hendersonii</i> *	Henderson's checkermallow	0.90	3.50	----	25
<i>Sisyrinchium idahoense</i> *	blue eyed grass	0.90	3.50	----	25
<i>Solidago canadensis</i>	Canada goldenrod	0.90	3.50	----	25
<i>Symphiotrichum subspicatum</i>	Douglas aster	0.80	3.50	----	25
<i>Viola adunca</i> *	spring bank violet	0.90	3.50	----	25

* indicates species that need to be advance ordered by October 2018.

** very limited availability. Bulbs are graded and priced by size.

+ Garry oaks are 2 years old and are grown in pots 4" wide and 14" deep.
